Name of the MI: OLF Hospital

Address: Porumamilla, Kadapa District

Name of the CHC: Mr. Mariyadas

Atlurmandal be side Narsapuram village, kadapa district. In this Atlurmandalin the month of January, Malaria and Diarrhoea affected most of the people in the villages of atlur mandal because of these disease people suffered alot. This diseases spreaded in kondrajupalli and kodigudlapadu villages also. Regarding this situation, we informed to health officers but they did not take any action. As the time passing, the disease has become very dangerous and effected so many people. When OLF HOSPITAL conducted medical camps in those villages, we came to know about these diseasesso we took a photos of people suffering from these diseases and we published in sakshi news paper with the help of sakshi journalist and village Leaders. By seeing this article published in paper, District Health Officer responded to this and conducted special Mega Health Programs and identified the who are affected by this disease.They collected the blood samples and referred the effected people to the District Hospital for further treatment and gave medicine. They also gave awareness and preventive measures on how to take care from those diseases. The Panchayat officers visited Thambilla gondhi, Ambavaram, kodigudlapadu, kondrajupalli in these villages they visited SC colony they repaired all the drainage and cleaned the places where there is stagnant water. They also cleaned drinking water tanks. They gave Suggestions to the village people on how to take preventive measures for these diseases.

Government officials participated:

In this program, District Medical Officer, Dr.Usharani, Malaria officer Hussainiah, Panchayat Secretary Venkateswarulu, ANM, ASHAWORKER, Health volunteers participated in this program.
