

BEST PRACTICE

Name of the MI: OLF Hospital

Address: Porumamilla, Kadapa District

Name of the CHC: Mr. Mariadas

Details of the Best Practice:

Name: Sreedevi, 28/F

Village: Narsapuram.

Her husband name is Prakash Rao. He is a Daily Wage worker. During his work accidentally he got an injury by an iron rod, poked into his leg, the wound got septic and was not healing. When doctors tested him they came to that he is suffering from diabetes. Because of this he is not going to work and taking treatment at home.

In this situation it is very difficult to maintain their family. Sreedevi has decided to work to maintain their family. She studied only 5 class because of this there was no work to do, then she approached CHC, Mr. Mariadas.

We understood their situation and we joined their children in government school. We came to know that she knows tailoring and stitching work for women and children. We brought a tailoring machine for her by which she can earn to feed their family. Now she is working on that and earning, enough to meet their necessities.

As she is continuing to do this work, we informed her and made her to apply for government benefit, which they are helping financially to the tailors'. She applied for this scheme and was benefited financially.

Now she is teaching to their children and villagers on stitching and also earning through it. Now she bought few more Tailoring machines by applying loan from Government and has improved her financial conditions. She is very happy for her improvement and is very thank full to us as we helped when she is very needy. She also helps our SHG Women in teaching tailoring and stitching.
